

## DS-PT1-WE Wireless Tag Reader

DS-PT1-WE wireless tag reader can connect to wireless security control panel for arming/disarming. It can also notice alarm by indicator and buzzer.

## Available Model

- DS-PT1-WE

## Key Feature

- 868MHz two-way wireless communication
- AES-128 encryption
- LED display, show the different feedbacks with easy understanding
- Operation: Stay arm/away arm/disarm by areas
- Arming process with fault confirm, more secure
- Patrol tag check in
- Front and rear panel tamper-proof

## Specification

| Model                 |                       | DS-PT1-WE Wireless Tag Reader                                                         |
|-----------------------|-----------------------|---------------------------------------------------------------------------------------|
| RF                    | Frequency             | 868 MHz                                                                               |
|                       | RF method             | Two way communication                                                                 |
|                       | RF encryption         | AES-128                                                                               |
|                       | Modulation            | 2GFSK                                                                                 |
|                       | RF distance           | 1200m(open area)                                                                      |
| Interface & component | TAMPER switch         | 1                                                                                     |
|                       | Power switch          | Power on/off                                                                          |
|                       | Indicator             | 5, area(blue), fault(orange), arm(blue), disarm(green), alarm(red), signal(red/green) |
|                       | Buzzer                | Prompt for tag operation, entry/exit delay and tamper/alarm                           |
| Electrical & battery  | Power Consumption     | Quiescent current: 110 uA<br>Max current: 292mA<br>Voltage: 1.5 VDC                   |
|                       | Battery type          | Three AA batteries                                                                    |
|                       | Battery life span     | 2 years (swipe tag 10 times per day )                                                 |
| Others                | Operation humidity    | 10% to 90% (no condensing)                                                            |
|                       | Operation temperature | -10°C to +55°C (-4°F to +122°F)                                                       |
|                       | Dimension (W × H × D) | 75*124*21 mm                                                                          |
|                       | Weight                | 176g (with battery)                                                                   |
|                       | Color                 | white                                                                                 |
|                       | Installation          | Wall mounting                                                                         |
